

MAKE-A-WISH® MICHIGAN

LEADER IN JOY

Elaine Catlin

Elaine, a dedicated social worker at Bronson Hospital, has referred more than 240 children to Make-A-Wish Michigan over the past 20 years. She continues to share our mission with children and their families and helps provide a sense of control and empowerment in their lives as they dream of possibilities and determine what their wishes will be. Elaine's great work helps our wish kids regain the magic and joy of childhood as our referral partners work so diligently to provide the medicine for their care.

“A wish offers hope, encouragement, and positive memories from what may initially seem like a totally negative experience, and choice to a child from whom much control has been taken. Because of the Make-A-Wish staff's connections, they create unique experiences many families could not plan on their own, and all free of expense. Being able to help in their mission is an honor. ”
